Bureau Veritas Certification

PST Group AB

P. Puzino g. 1, LT-35173 Panevėžys, Lithuania

This is a multi-site certificate, additional site(s) are listed on the next page(s)

Bureau Veritas Lit, UAB (Bureau Veritas Certification Lithuania) certifies that the Management System of the above organisation has been audited and found to be in accordance with the requirements of the management system standards detailed below

LST ISO 45001:2018 / ISO 45001:2018

Scope of certification

Planning, organization, management and control of construction and engineering works, preparatory work, design and project management. General construction works, special construction works: mechanical and electrical works, including design. Management of engineering systems. Operation of electrical equipment.

Special building construction contract services. Buildings: residential and non-residential buildings, communications, engineering networks (oil, gas (except main gas pipelines), water supply, heat, sewage disposal; collectors, towers, masts and other engineering structures intended for electronic communications activities; other engineering networks), hydrotechnical structures, other engineering structures, as well as the mentioned structures located in the territory of the cultural heritage object, its protection zone and the cultural heritage area, structures of nuclear energy objects

Areas of construction works: general construction works; construction of water supply and sewage disposal networks; trenchless construction of engineering networks; installation of static water supply and sewage disposal engineering systems; construction of heat supply networks; installation of static heating, ventilation and air conditioning engineering systems; construction of oil and gas networks; installation of static gas engineering systems; installation of heating, gas, oil or other fuel technological engineering systems; installation of internal fire water supply systems of buildings; installation of stationary fire extinguishing systems; construction of outdoor fire water supply networks; installation of smoke and heat management systems; installation of static electricity engineering systems; installation of process management and automation systems; installation of static remote communication (telecommunications) engineering systems; installation of building security alarm, fire safety (alarm) engineering systems.

Original cycle start date:	28-11-2008
Expiry date of previous cycle:	NA
Certification / Recertification Audit date:	NA
Certification / Recertification cycle start date:	02-05-2024
Subject to the continued satisfactory operation of the organisation's Management System, this certificate expires on:	01-05-2027

Certificate No.: LT007229
